			Claims			NO	
	Industria	al applicability (IA)	Claims	1-3		YES	
			Claims			NO	
ı							

2. Citations and explanations (Rule 70.7)

This report makes reference to the following document:

D3: DE 103 16445 A (LUK LAMELLEN & KUPPLUNGSBAU)
23 October 2003

D3, which is considered to represent the closest prior art, discloses a multi-plate clutch with a force sensor in the spring device.

The problem addressed by the present invention may therefore be considered that of controlling release and/or engagement of the clutch in an optimally timely manner.

The subject matter of claim 1 differs from the clutch disclosed in D3 in that it discloses a clutch force control system directly dependent on a pressure sensor on the spring device.

This solution is neither disclosed nor suggested by the available prior art.

Claims 2 and 3 are dependent on claim 1 and therefore
